

**PRESS RELEASE**  
**FOR IMMEDIATE RELEASE**

**Cetus Solutions support growth with Head Office move**

Manchester, UK: Wednesday 10<sup>th</sup> April 2019

**Cetus Solutions, a leading North West IT reseller that provides infrastructure, digital workspace, cloud and security solutions, will be relocating its Head Office location from Salford Quays to Cobra Court, Trafford Park this month as part of its growth strategy.**

A long-standing partner of technology vendors, Citrix, VMware, Microsoft, NetApp and Dell Technologies, Cetus Solutions will be embarking upon the move before the end of April – moving its staff from its Salford Quays office, where the company has been based for 12 years.

The relocation comes as a result of Cetus' phenomenal growth over the past few years, which has seen its workforce increase to over 60 members of staff. The company has also seen a high increase in its customer base, having recently won a number of large tenders across the public and private sectors.

Established in 2001, Cetus Solutions has gone on to become one of the leading IT resellers across the UK. One of the leading Citrix Platinum Partners in Europe, Cetus works with its customers to help them transform their IT operations and simplify the way they deliver IT services to their customers.

The relocation to the new, state-of-the-art office facility will support the company with its business development plans and ambitious growth strategy. Boasting an impressive 6,040 square feet, the new premises incorporates an open plan office space and has undergone a complete redesign and refurbish to include modern, ergonomic furniture and a welcoming, light customer reception.

Keeping in line with Cetus' celestial brand name, the new building has been named The Quadrant – pertaining to the constellation Cetus, which resides in the first quadrant of the Southern Hemisphere.

Managing Director, Mike English, comments: "The relocation of our operation to Cobra Court is the culmination of an exciting year for us in 2018. Cetus continues to go from strength to strength and has experienced enormous growth over the last few years. To support this growth, and to plan for the

future, it was imperative that we move to larger more modern premises, which is an exciting progressive development for us.”

To celebrate the new office, Cetus Solutions will be hosting an exclusive launch event for customers and suppliers in May, providing them with a ‘first-look’ at the new premises and an opportunity to learn more about the company’s growth and development plans for 2019 and beyond.
